Progettazione

Per i nostri clienti effettuiamo rendering, un processo di creazione delicato e complesso, che ha come punto di arrivo un ambiente reale, concreto e vitale.

Il punto di partenza, invece, sono le vostre idee.

Realizzare un render di interni significa donare vita alla vostra idea: dare volume e luce,

creare una realtà in cui le persone possano immaginare se stesse, una storia in cui il prodotto sia protagonista assoluto.

Ogni progetto, ogni prodotto, ogni ambiente ha un'impronta unica, fatte dalle infinite caratteristiche e sfumature che costituiscono l'immagine.

Diamo servizio di renderizzazione e video per rendere più reale possibile la visione dei prodotti inseriti nell'ambiente. Con i nostri video potrete percorrere tutti gli ambienti e constatare l'effetto del prodotto già installato nei locali.

For our customers we render a delicate and complex creation process, which has as its end point a real, concrete and vital environment.

The starting point is your ideas.

Making an interior rendering means giving life to your ideas: give volume and light, create a reality in which people can imagine themselves, a story in which your product can be the absolute protagonist.

Every project, every product, every environment has a unique imprint, made by the infinite characteristics and nuances that make up the image.

We provide rendering and video making services to make the easiest the viewing of products inserted in the environment.

With our video you can explore all the environments and see the effect of the product already installed in your premises.

Progettare la luce di un ambiente è un aspetto importantissimo nell'arredare interni, un lavoro di ricerca e consulenza in grado di apportare un elevato valore aggiunto all'idea architettonica.

La nostra azienda offre un servizio di progettazione per ogni tipologia di ambiente:

dai locali pubblici alle abitazioni private,

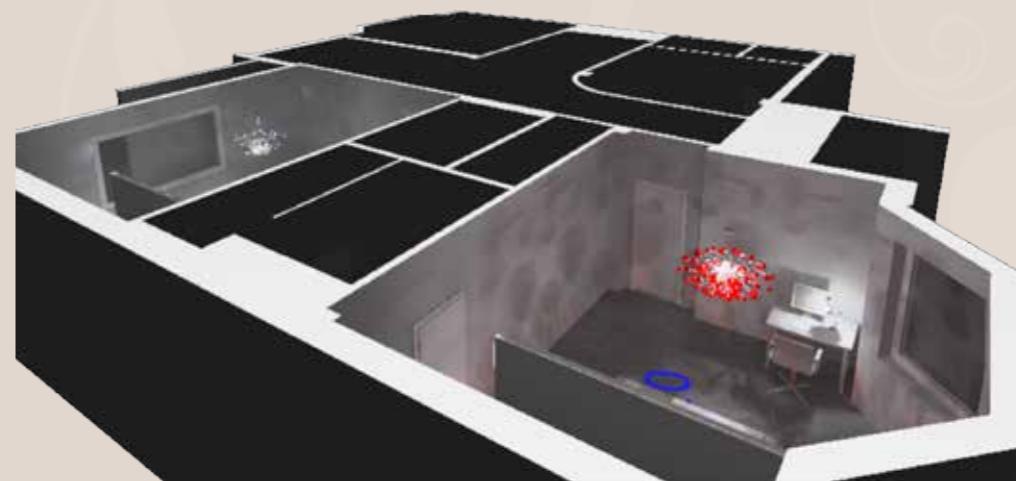

con soluzioni tecniche ed estetiche di supporto sia al professionista che all'utente finale.

Contatta il nostro ufficio tecnico per ulteriori informazioni.

Environment light design is a very important aspect in furnishing interiors, a research and consulting work able to bring a high added value to the idea of architecture.

Our company offers a design service for each type of area: from public places to homes, with technical and aesthetic solutions of support both to the professionals and the final customers.

Contact our technical office for more information.

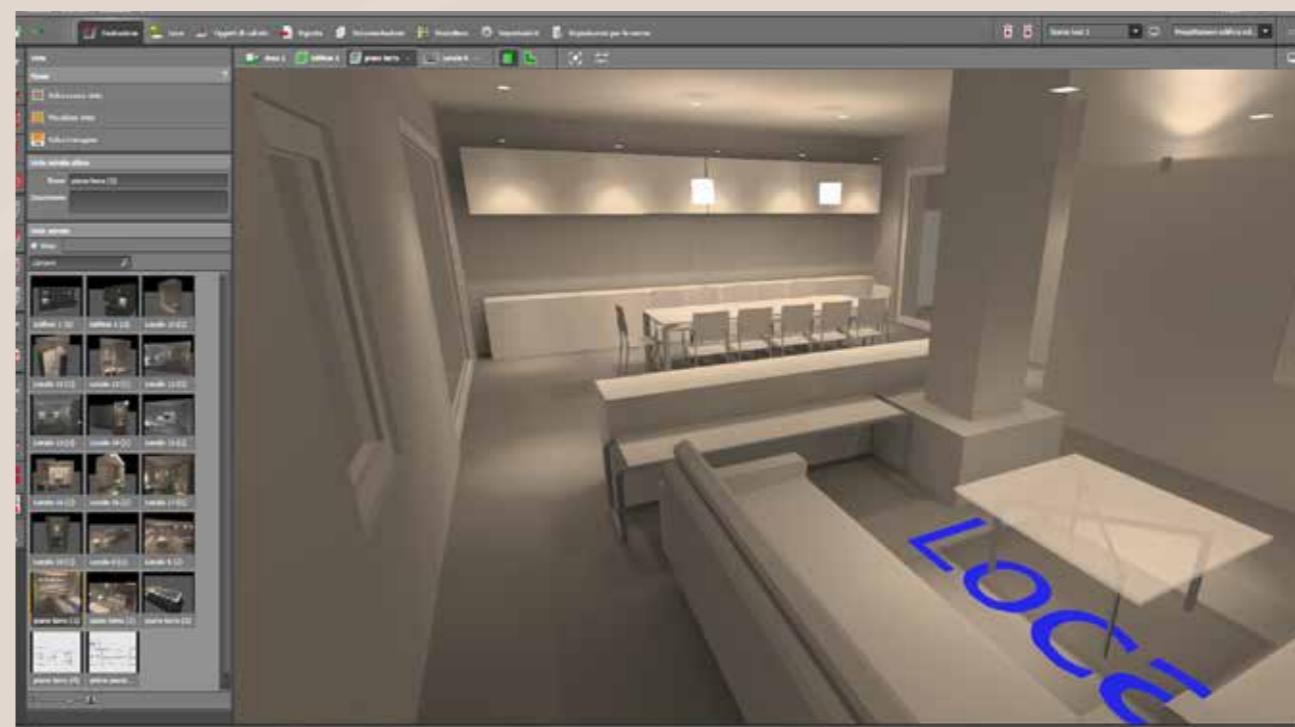

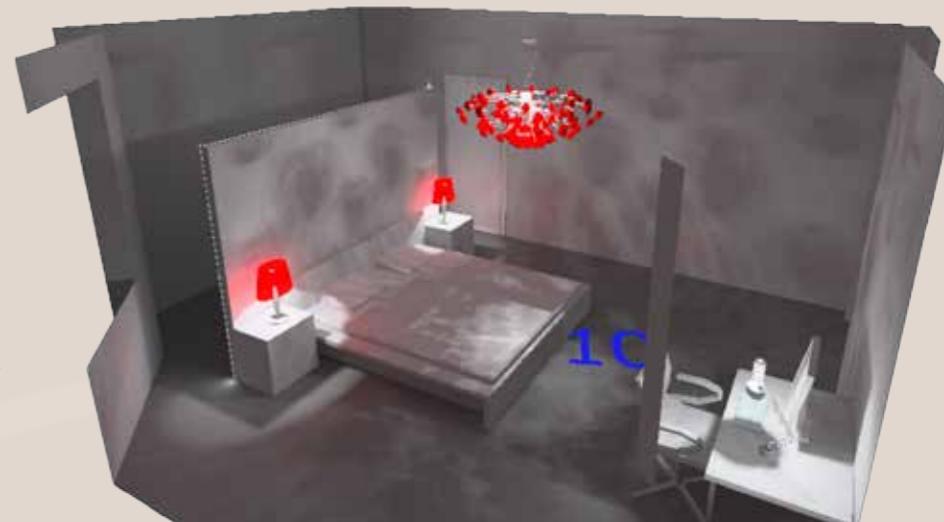

Consulenza tecnica

Ogni ambiente ha le sue esigenze, e grazie alla strumentazione professionale siamo in grado di calcolare lumen, lux, cri, curve fotometriche idonee ad ogni situazione.

Per assicurare la miglior distribuzione di luce le prove tecniche vengono eseguite sia sul prodotto che sull'ambiente.

Each environment has its own needs, and thanks to the professional equipment we can calculate lumens, lux, cri, photometric curves suitable for every situation.

To ensure the best distribution of light, our technical tests are performed from product to environment.

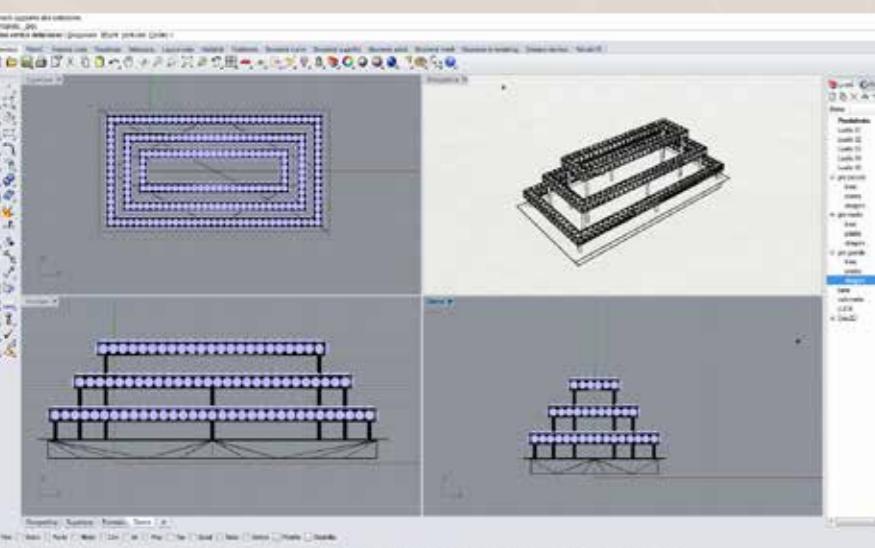

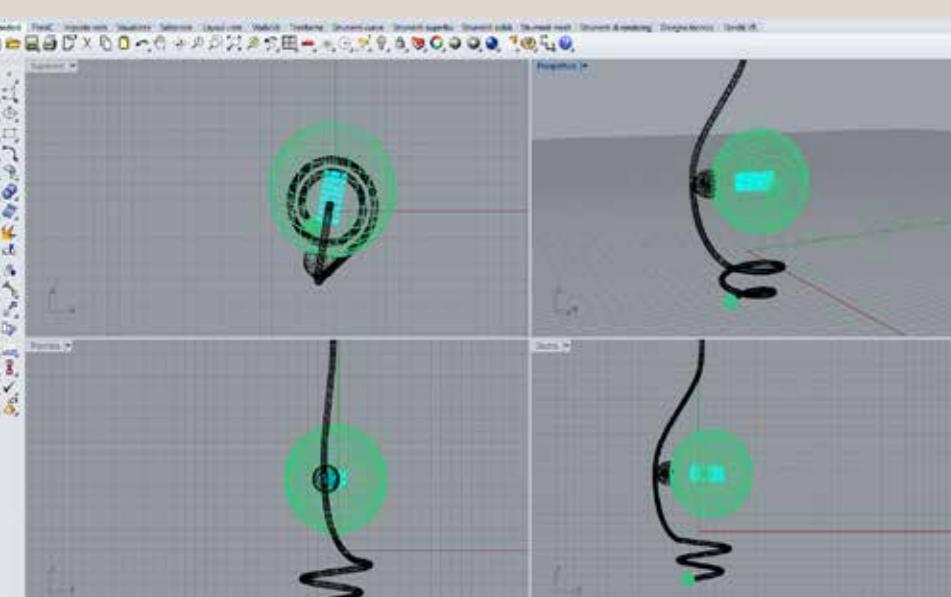

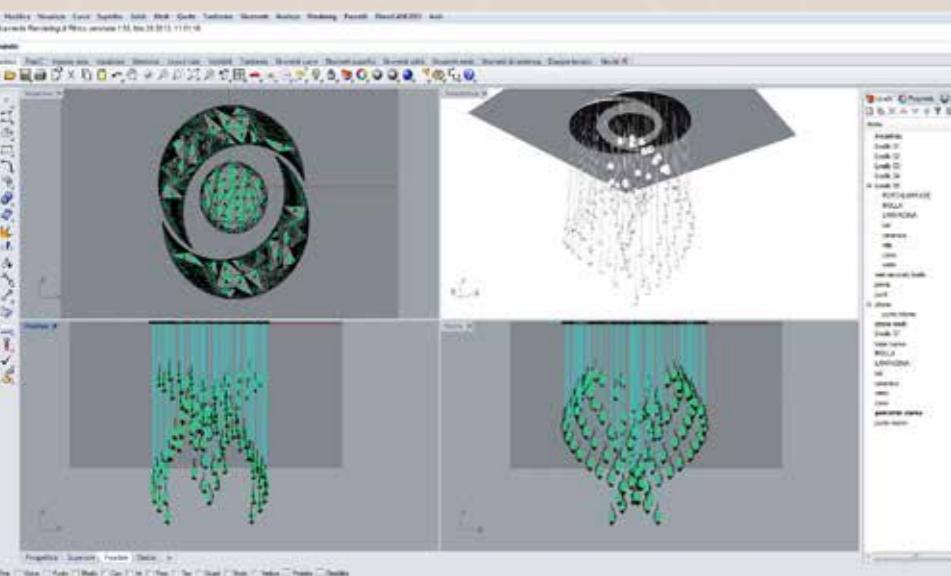

Contract

Contemporanea fornisce un servizio di produzione su misura che permette ai nostri clienti di dare forma alle proprie idee. Grazie all'esperienza dello studio tecnico e dei nostri lighting designer sarete seguiti passo dopo passo durante la fase di sviluppo del progetto

We provide a bespoke manufacturing service that allows our customers to give shape to their ideas.

Thanks to the technical study and our lighting designer you are followed step by step during the development phase of the project.

Contemporanea srl differenzia la sua produzione in prodotti di serie (a disposizione di tutta la clientela) e prodotti su misura. Il prodotto su misura è personalizzato ed in esclusiva per il singolo cliente e può essere di suo sviluppo o in alternativa studiato nel nostro ufficio tecnico. Siamo in grado di progettare prodotti con misure importanti e di grandi dimensioni sia per il settore pubblico che privato.

Sono nostri referenti importanti catene alberghiere e studi progettazione. Nei nostri prodotti l'arte si fa mestiere: artigianalità e tecnologia si fondono come per incanto per dare alla luce pezzi di squisita fattezza formale ed estetica, sintesi finale di classe, raffinatezza e gusto.

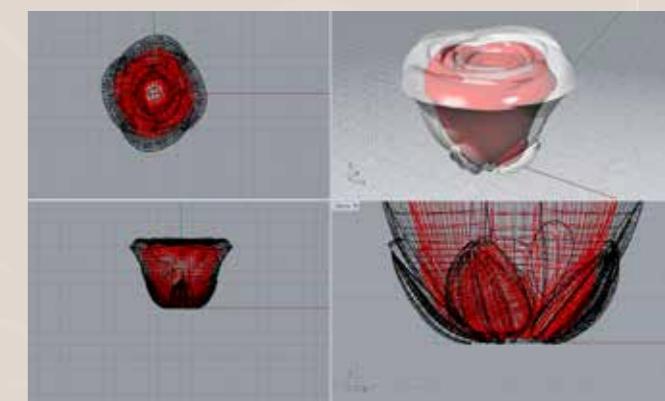

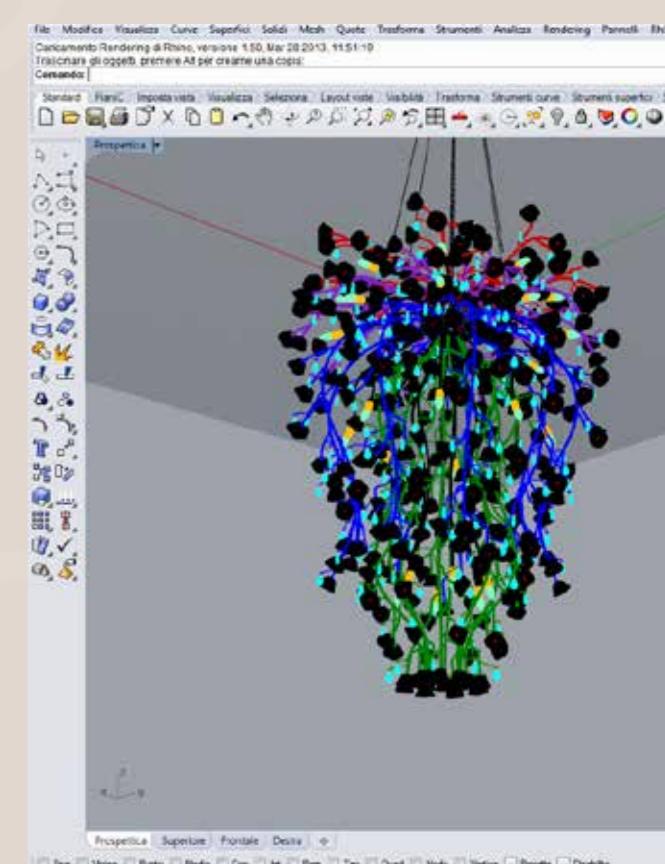

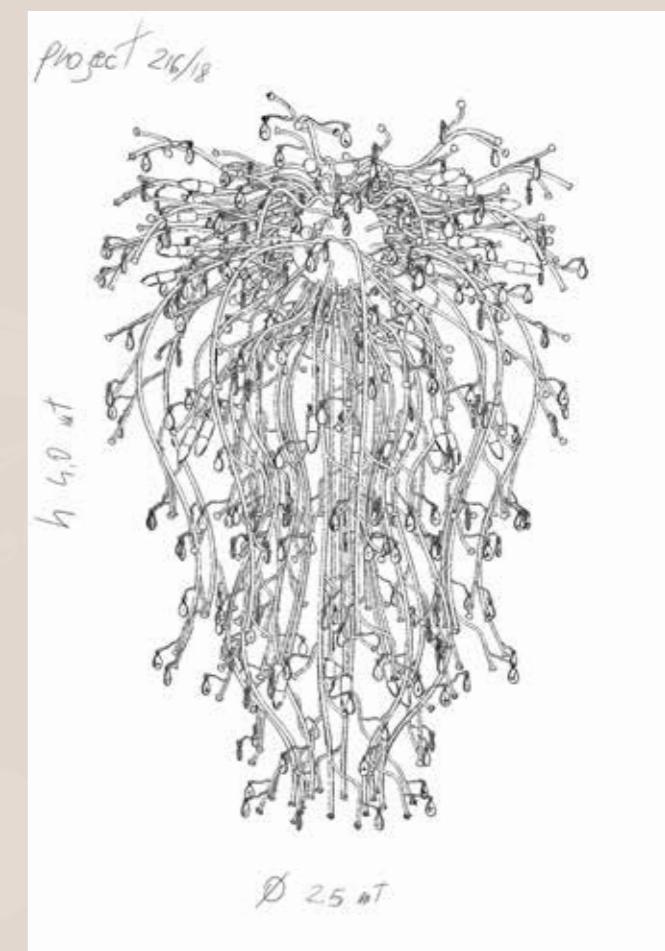

Contemporanea srl differentiates its production into standard products (available to all customers) and customized products.

The customized product is personalized and exclusive for the individual customer.

It can be developed or alternatively studied in our technical office.

We are able to develop products with very large measures for both the public and private sectors.

Our contacts are important hotel chains and design studios. In our products the art made craft: craftsmanship and technology blend as if by magic to give birth to pieces of exquisite formal and aesthetic beauty, final synthesis of class, refinement and taste.

BARLUME

Ad un primo sguardo Barlume sembra una lampada dalla struttura semplice. In realtà è il risultato di un percorso progettuale che riporta nella modernità la più antica tradizione.

La fonte luminosa a vista porta nello spazio una morbida luce d'atmosfera.

Le montature in oro opaco, rame opaco o cromo, sono impreziosite dai vetri decorativi muranesi.

At first glance Barlume looks like a lamp with a simple structure. In reality it is the result of design path that brings the most ancient tradition back to modernity.

We wanted to create a lamp that was the synthesis of years of development in technology of the simple LED bulb.

The light source brings into the space a soft atmospheric light.

Frame in matt gold, matt copper and chrome are enriched by Murano's decorative glasses.

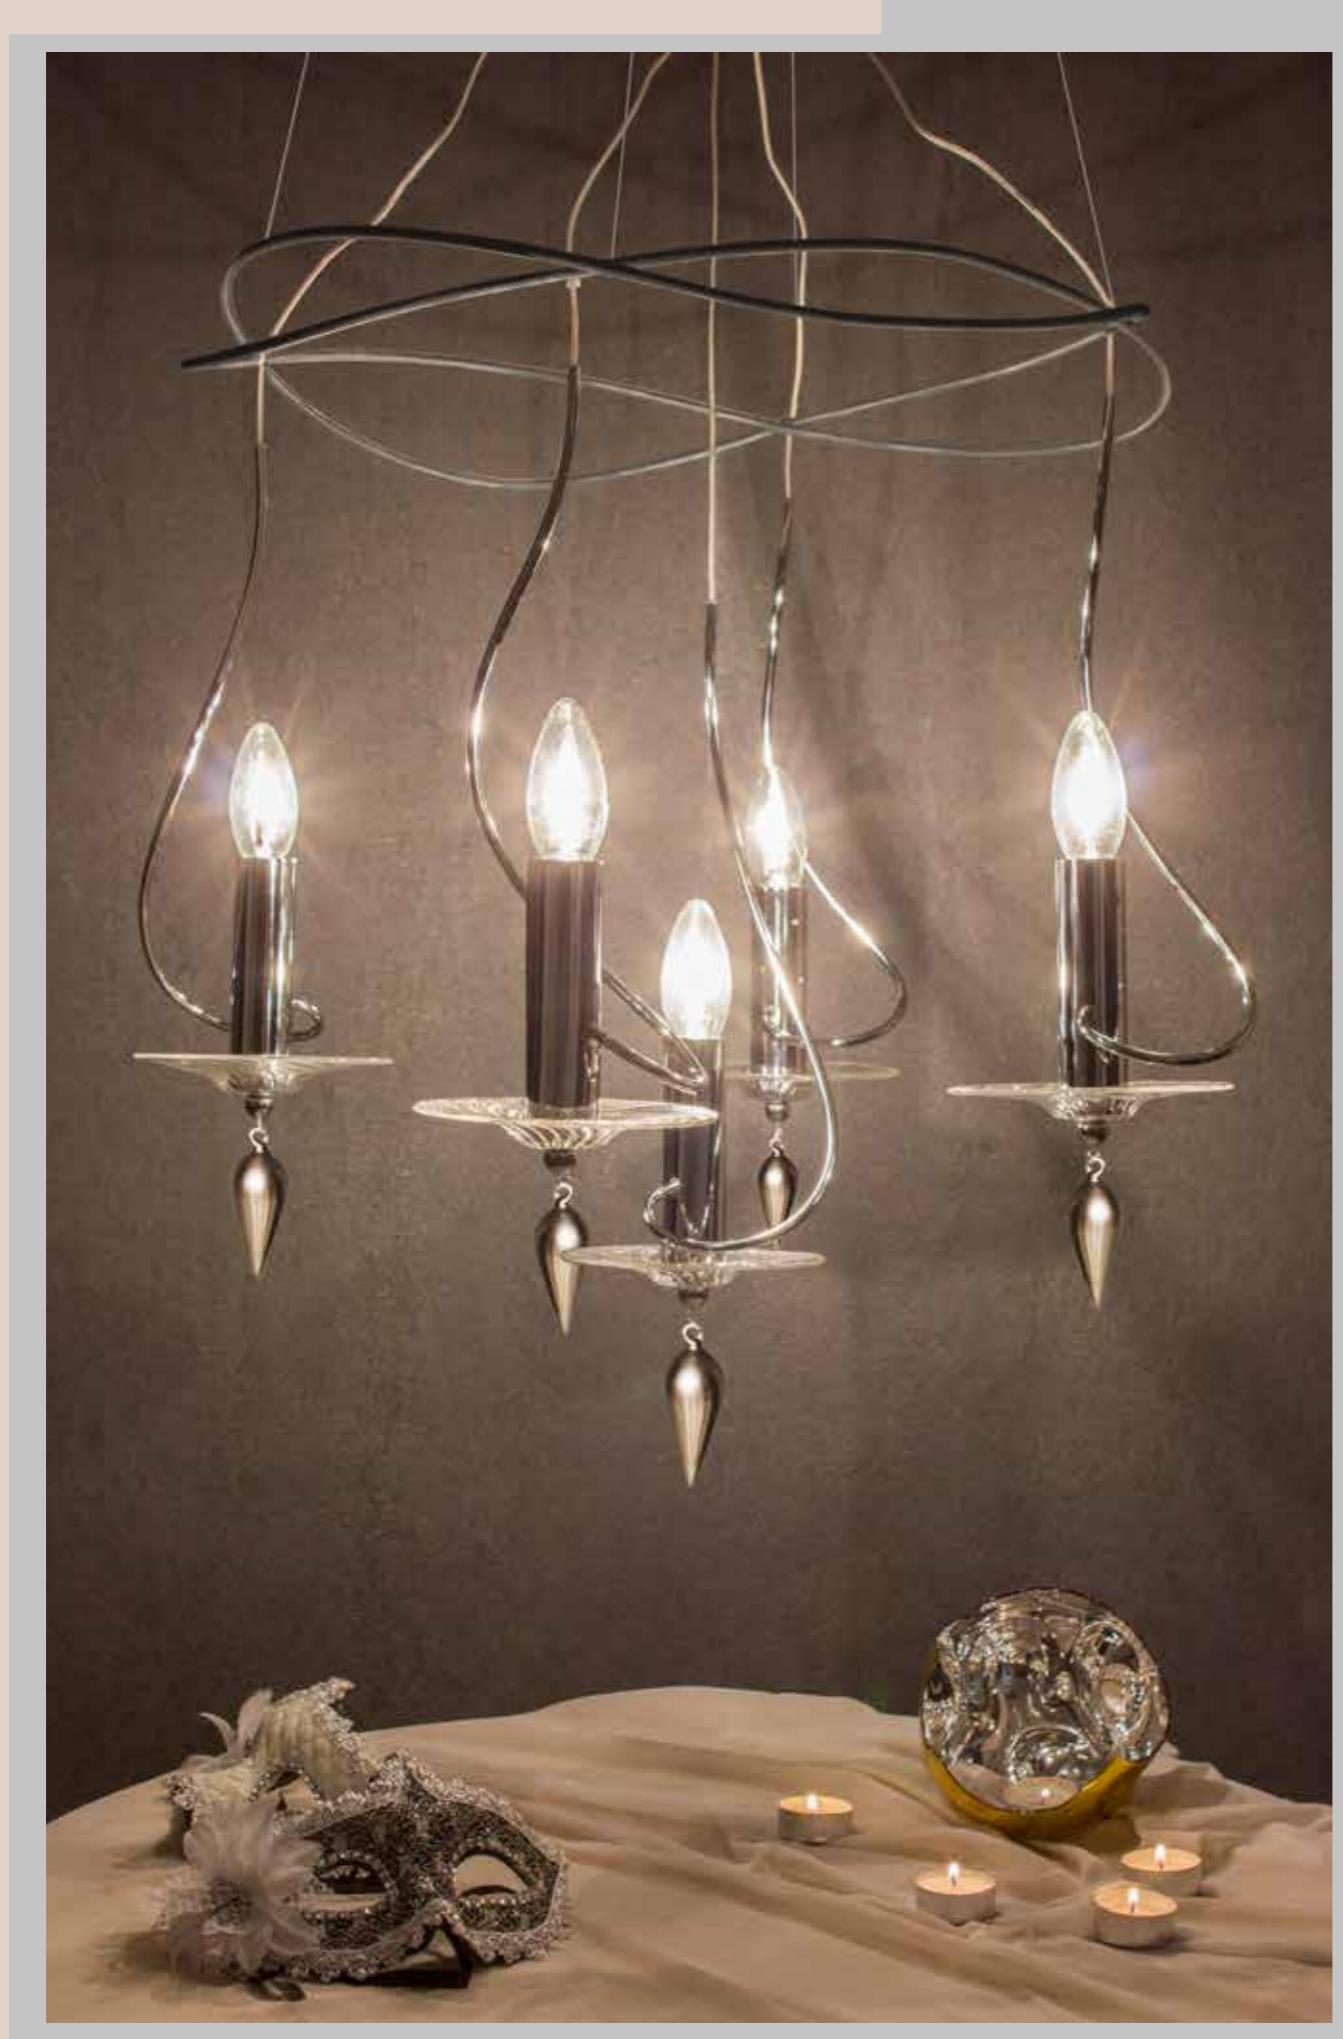

Sono disponibili sospensioni con anello centrale aventi 5 o 9 luci nelle rifiniture cromo, oro opaco, rame opaco.

Hanging lamps are available with the central ring with 5 or 9 lights in chrome, matt gold or matt copper finishes

VENEZIA

I vetri Venezia parlano il linguaggio della bellezza e della poesia muranese. Creati da un vetro soffiato a bocca e arricchiti da preziosi fiori , che ricordano il tradizionale bocciolo veneziano, testimoni di un sapiente lavoro artigianale. La forma bassa e ampia crea una luce intima, ammorbidente dalla superficie cristallina.

Venezia's glasses speaks the language of Murano's beauty and the poetry. Created from a mouth-blown glass enriched with some precious flowers that remind the traditional glass of Venetian chandeliers, witnesses of a wise craftsmanship. The low and wide shape creates an intimate light, softened by a crystalline surface.

VENIER

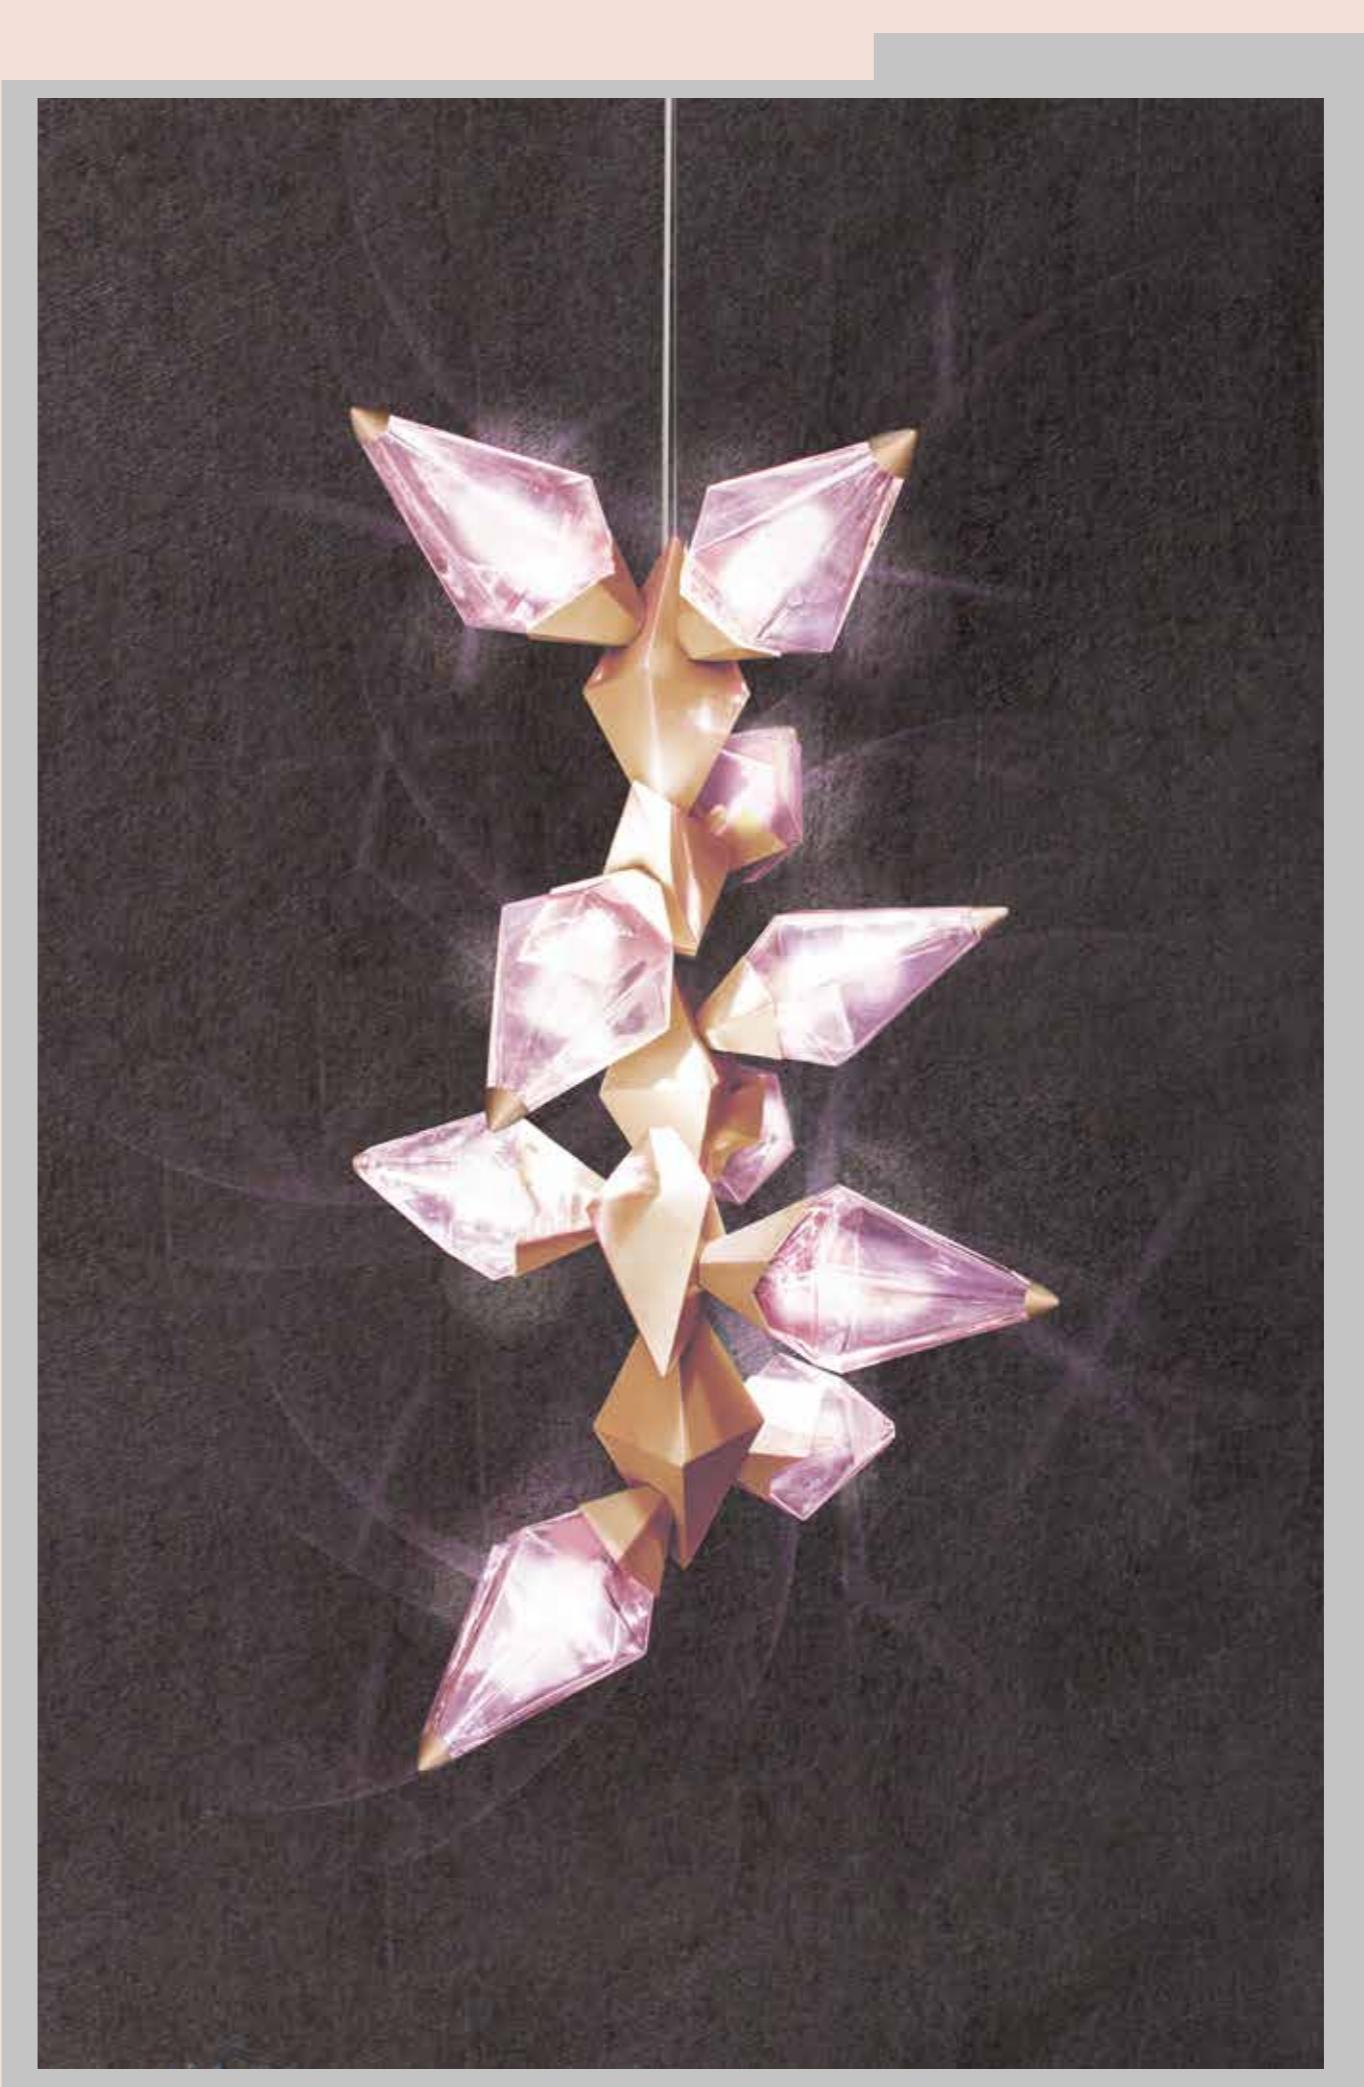

Venier è una collezione di lampade a sospensione e a soffitto dotate di un notevole potere illuminante e capaci di convertire geometrie semplici in un design unico.

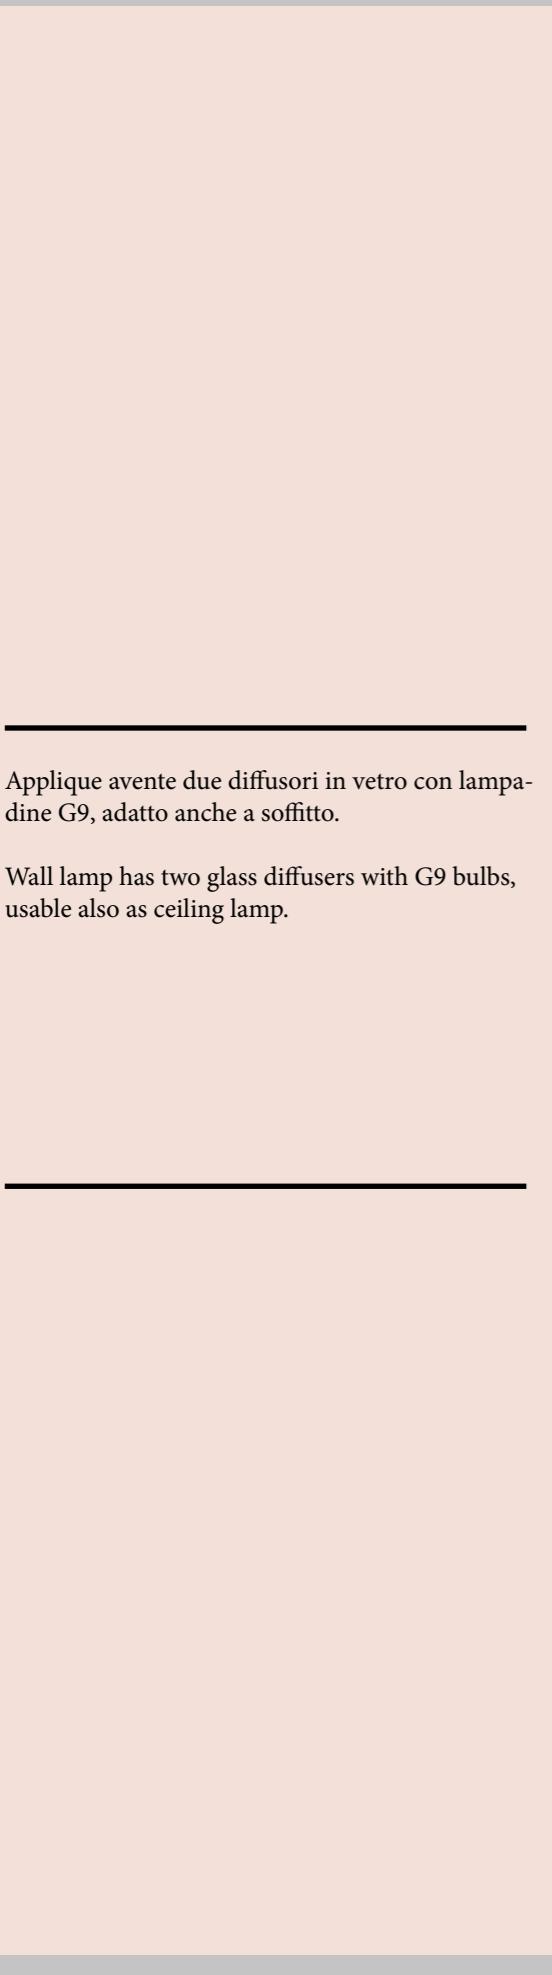

Le forme ricordano la linea stilizzata dello stelo di un fiore, che accoglie uno o più boccioli. Ciascun diffusore nella struttura ospita la fonte luminosa , un elemento che rende a queste lampade una presenza scultorea e preziosa al tempo stesso.

Venier is a collection of hanging and ceiling lamps with a remarkable illumination power and it is able to convert simple geometries into a unique design.

Shapes recall the stylized shape of the stem of a flower, which receives one or more buds. Each diffuser houses the light source, which is an element that makes these lamps a sculptural and attractive presence at the same time.

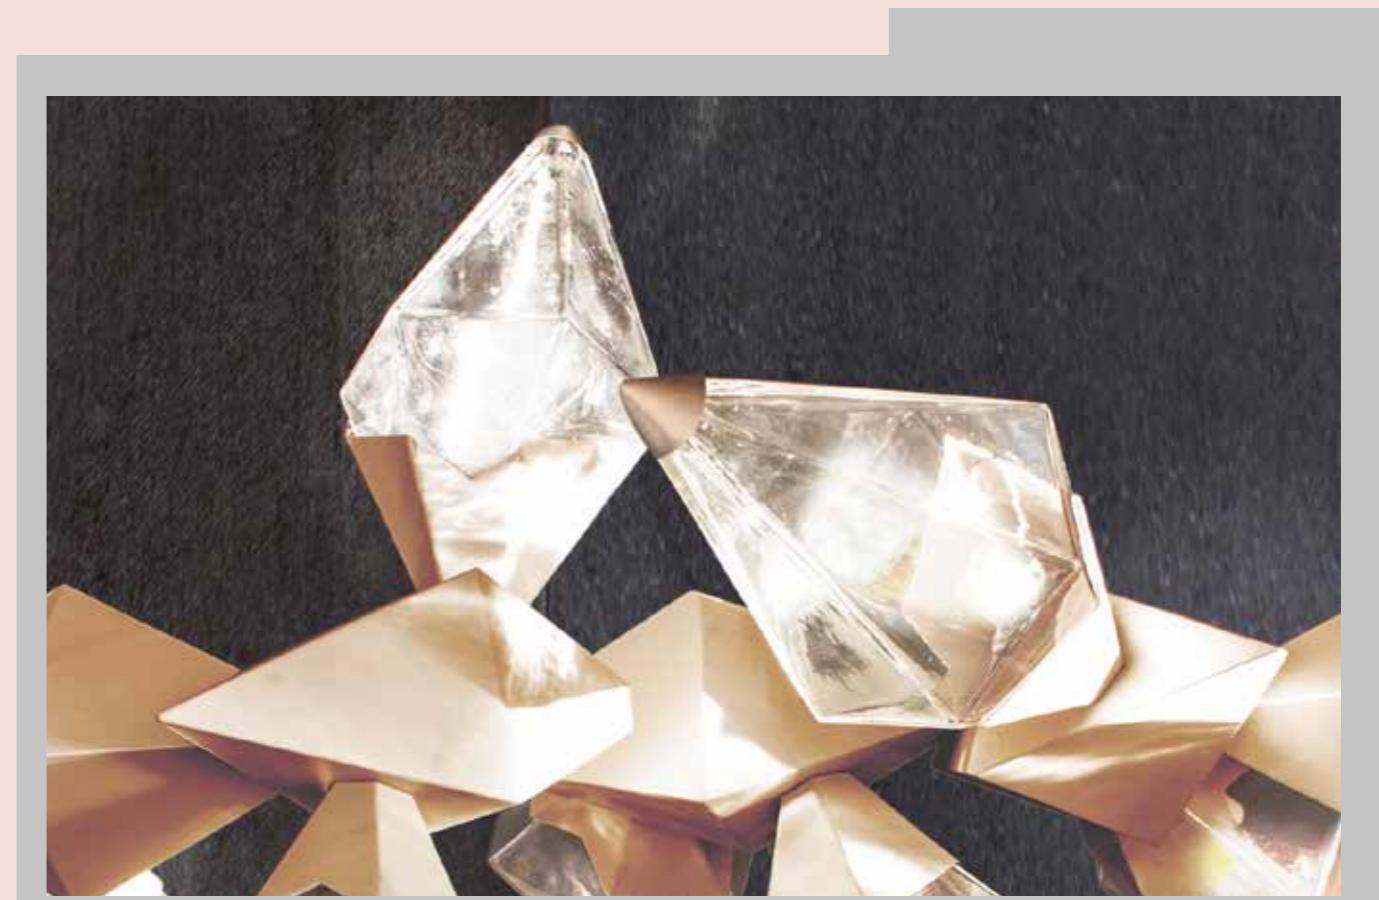

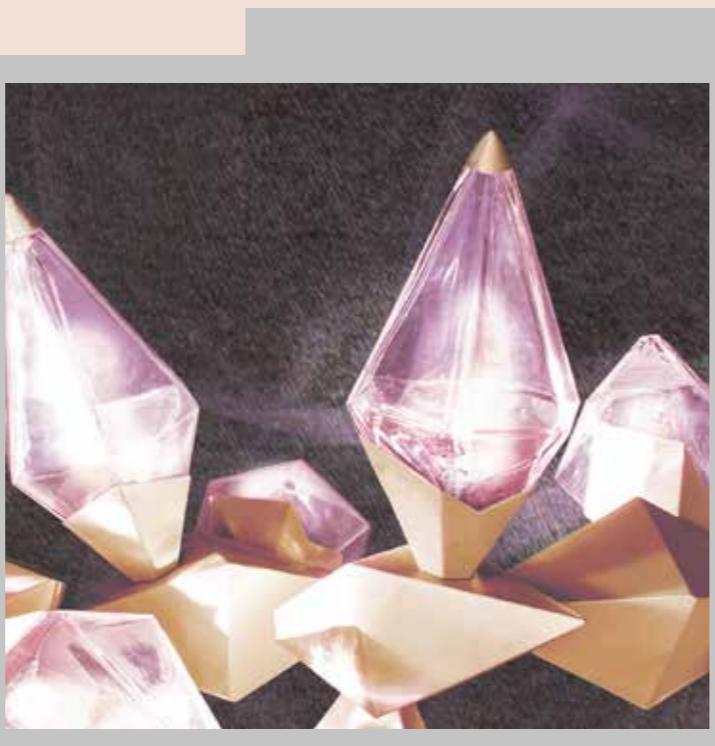

Applique avente due diffusori in vetro con lampadine G9, adatto anche a soffitto.

Wall lamp has two glass diffusers with G9 bulbs, usable also as ceiling lamp.

Il vetro e' sostenuto tramite archetto metallico con finale a punta.

The glass is supported by a metal bow with a pointed end.

MILU'

Milù ricorda una prodigiosa scultura luminosa contemporanea che domina lo spazio con la sua forte presenza decorativa.

Milù è frutto di uno studio accurato sull'accostamento dei volumi e sulle rispettive dimensioni, al fine di ottenerne un insieme equilibrato, che gioca sulla disposizione asimmetrica delle parti. Gli elementi sferici contengono le sorgenti luminose e diffondono nello spazio una luce morbida e confortevole.

Milù reminds a prodigious contemporary luminous sculpture that dominates spaces with its strong decorative presence.

Although it seems like a random combination, Milù is the result of an accurate study on the approach of the volumes and dimensions in order to reach a balanced whole that plays with the asymmetrical positions of parts. The spherical elements contain light sources and diffuse into the space a soft and comfortable light.

MADAMA

Madama un esercizio di equilibrio: particolari sferici che si combinano in una struttura capace di dar vita ad un singolo pendente in una composizione articolata.

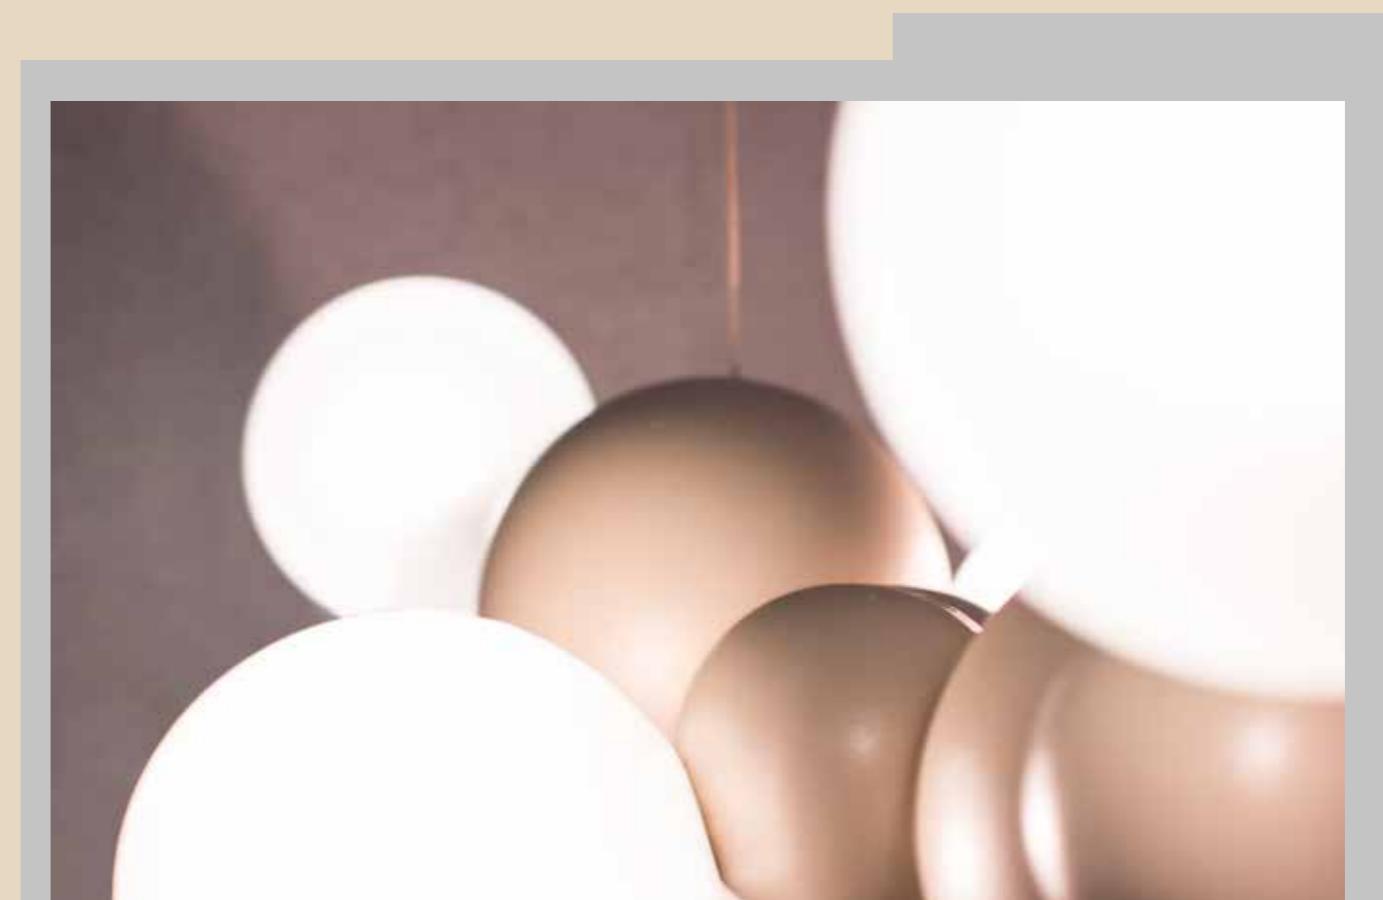

La sottile circonferenza degli elementi, artigianalmente realizzati in metallo, contribuisce a rendere l'oggetto estremamente leggero ed elegante. Gli elementi di cui si compone Madama, seppur anche decorativi, assolvono ad una funzione importante di assimetria con la sorgente luminosa.

La quale contribuisce alla creazione di un equilibrio armonioso.

Madama is a exercise of balance: spherical archetypes that combine in a structure able to give life to a single pendant in an articulated composition.

The thin circumference of elements, which are handcrafted in metal, helps to make object extremely light and elegant. The elements of which Madama is made, although also decorative, have a bearing function: lead cables to the spheres, which guard the light source. These ones contributes to the creation of a harmonious balance.

Caratteristiche dei prodotti e condizioni di utilizzo

Salvo diverso ed espresso accordo scritto tra le parti, i parametri funzionali dei prodotti sono quelli espressi, comunicati o comunque risultanti nei disegni e specifiche tecniche del Venditore se esistenti o su quanto indicato sul sito web www.contemporaneasrl.eu relativamente ai prodotti. I livelli di qualità dei prodotti forniti sono quelli standard del Venditore, evidenziati nelle relative specifiche o su quanto indicato e desumibile sul sito web del Venditore. E' onere del Compratore individuare e comunicare al Venditore le condizioni di utilizzo dei prodotti prima della relativa definizione tecnica. In mancanza di indicazioni da parte del Compratore il Venditore considera condizioni di utilizzo quelle di prassi dallo stesso considerate o esplicitate nei propri disegni e documentazione tecnica.

Products features and conditions of use

Unless otherwise expressly agreed in writing by the parties, the conditions for using of the products are those communicated or in any case resulting from the drawings and technical specifications of the Seller, if any, or as described in the website www.contemporaneasrl.eu in relation to products. The quality levels of products are the standard quality levels of the Sellers, indicated in the relevant specifications as described on the Seller's website. It is always the Buyer's responsibility to identify and notify the Seller of the conditions of use of products before technically defining them. Failing any particular instructions from the Buyer, the Seller considers as usual conditions of use those it considered or described in its designs and technical documentation.
