# Company profile

Knikerboker nasce dopo anni di esperienza nel campo della moda, il cui obiettivo principale era la ricerca dell'eleganza e raffinatezza tipiche del Made in Italy. E' dal connubio tra queste due sfere che nasce Knikerboker, il cui concetto distintivo è rappresentato dall'enfasi che l'azienda mette nei progetti delle sue collezioni, composte non semplicemente da lampade ma da sculture luminose uniche, mescolando diverse sfere della creatività: arte, moda e design.

Riflesso e rifrazione creano un'atmosfera di suggestione, caratterizzata da una intrinseca eleganza, nella quale le ombre, i riflessi e i bagliori offrono soluzioni adatte ad ogni tipo di arredamento.

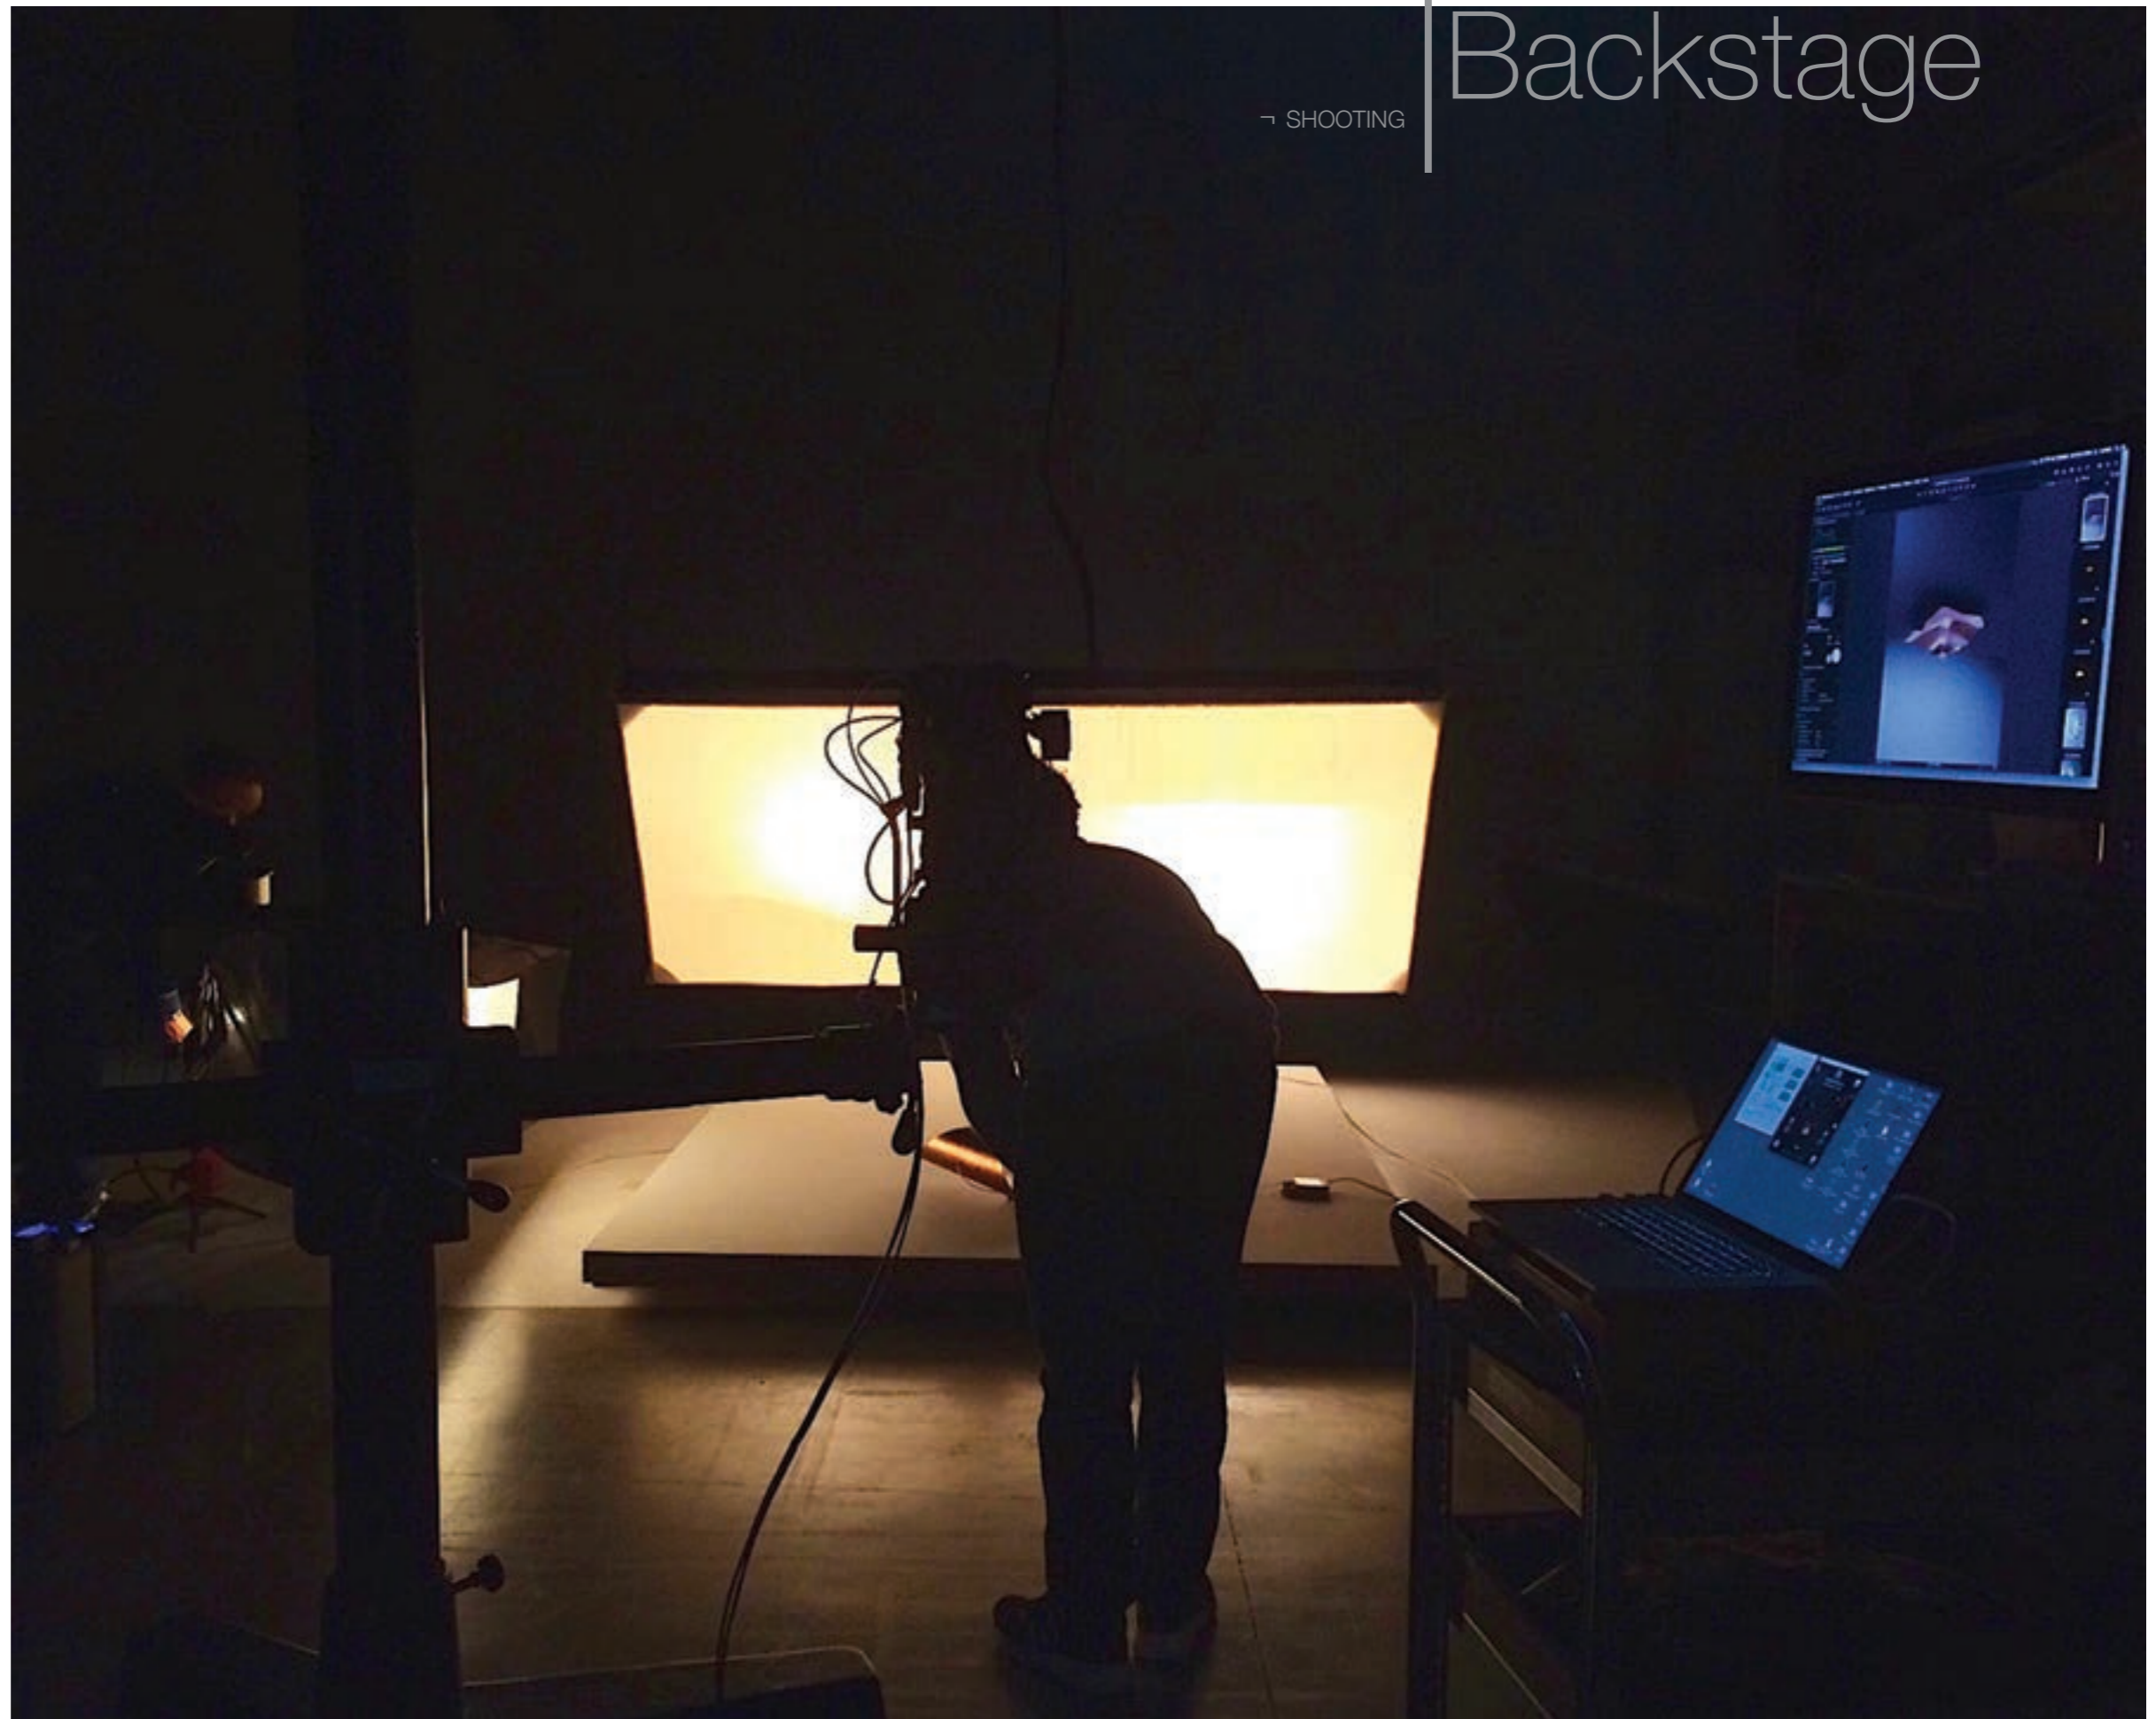

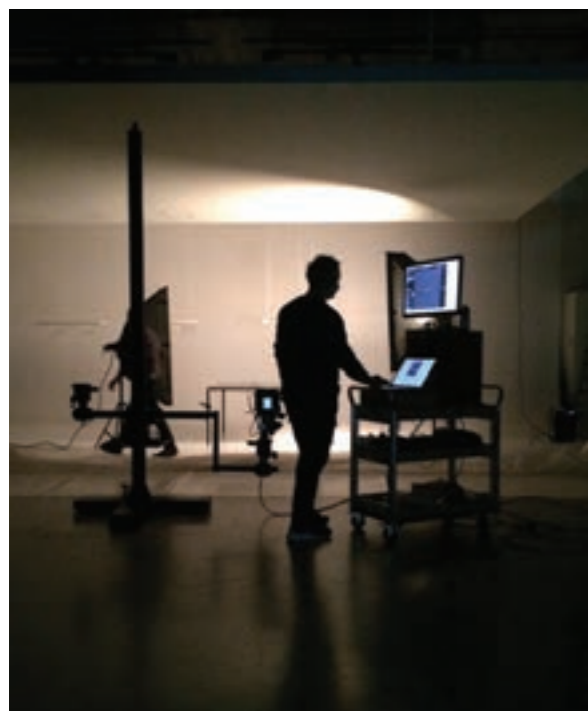

Knikerboker was born after many years of experience in the field of fashion, whose principal aim was the research for elegance and refinement typical of Made in Italy. It is from the union between these two universes that Knikerboker borns, whose distinctive concept is represented by the emphasis that the company puts on the projects of its collections, made not only of lamps but also of unique lighting sculptures, blending different spheres of creativity: art, fashion and design.

Reflection and refraction create atmospheres of suggestion, characterized by a physical and intrinsic elegance, where shadows, glares and flares offer solutions suitable to any kind of furnishing needs.

Ursprünglich der Modebranche entsprungen, steht die Fa. Knikerboker heute für Leuchten, die von Eleganz und Raffinesse, typische Merkmale in der Modewelt für Made in Italy, geprägt sind.

Die Verbindung der beiden Welten, aus denen die Fa. Knikerboker entstand, hat dazu geführt, dass sich die Kollektionen nicht aus Leuchten zusammensetzen, sondern aus einzigartigen Lichtskulpturen, in denen sich verschiedene Bereiche der Kreativität: Kunst, Mode und Design mischen.

Durch ihre faszinierend elegante Optik und ihr unglaublich atmosphärisches Licht kommen die Designobjekte in jeder Art von Einrichtung zur Geltung.

# Contracts

Tutti i prodotti sono totalmente fatti a mano, ogni pezzo è unico, un'opera a sé stante.  
L'artigianalità è il concetto distintivo.  
I pezzi prodotti su larga scala mantengono tuttavia la loro unicità che li contraddistingue,  
essendo simili ma non uguali.

All the products are totally hand-made, every piece is unique, a stand-alone handiwork.  
Handicraft is the distinctive concept.  
Products on a large scale preserve their own uniqueness which distinguishes them,  
being similar but not equal.

Alle Produkte werden ausschließlich handgefertigt, jedes Stück ist ein Unikat, ein  
selbständiges Kunstwerk.  
Die Kunsthandwerklichkeit ist der Schwerpunkt. Die im großen Umfang hergestellten  
Produkte behalten ihre Einzigartigkeit, die sie kennzeichnen, indem sie vergleichbar  
aber nicht identisch sind.

# NON SO!

Indefinibile... Imprescindibile... Sensazione o impressione che non si riesce a definire.  
Avere un certo "Non So che", qualcosa di affascinante ma difficilmente definibile.

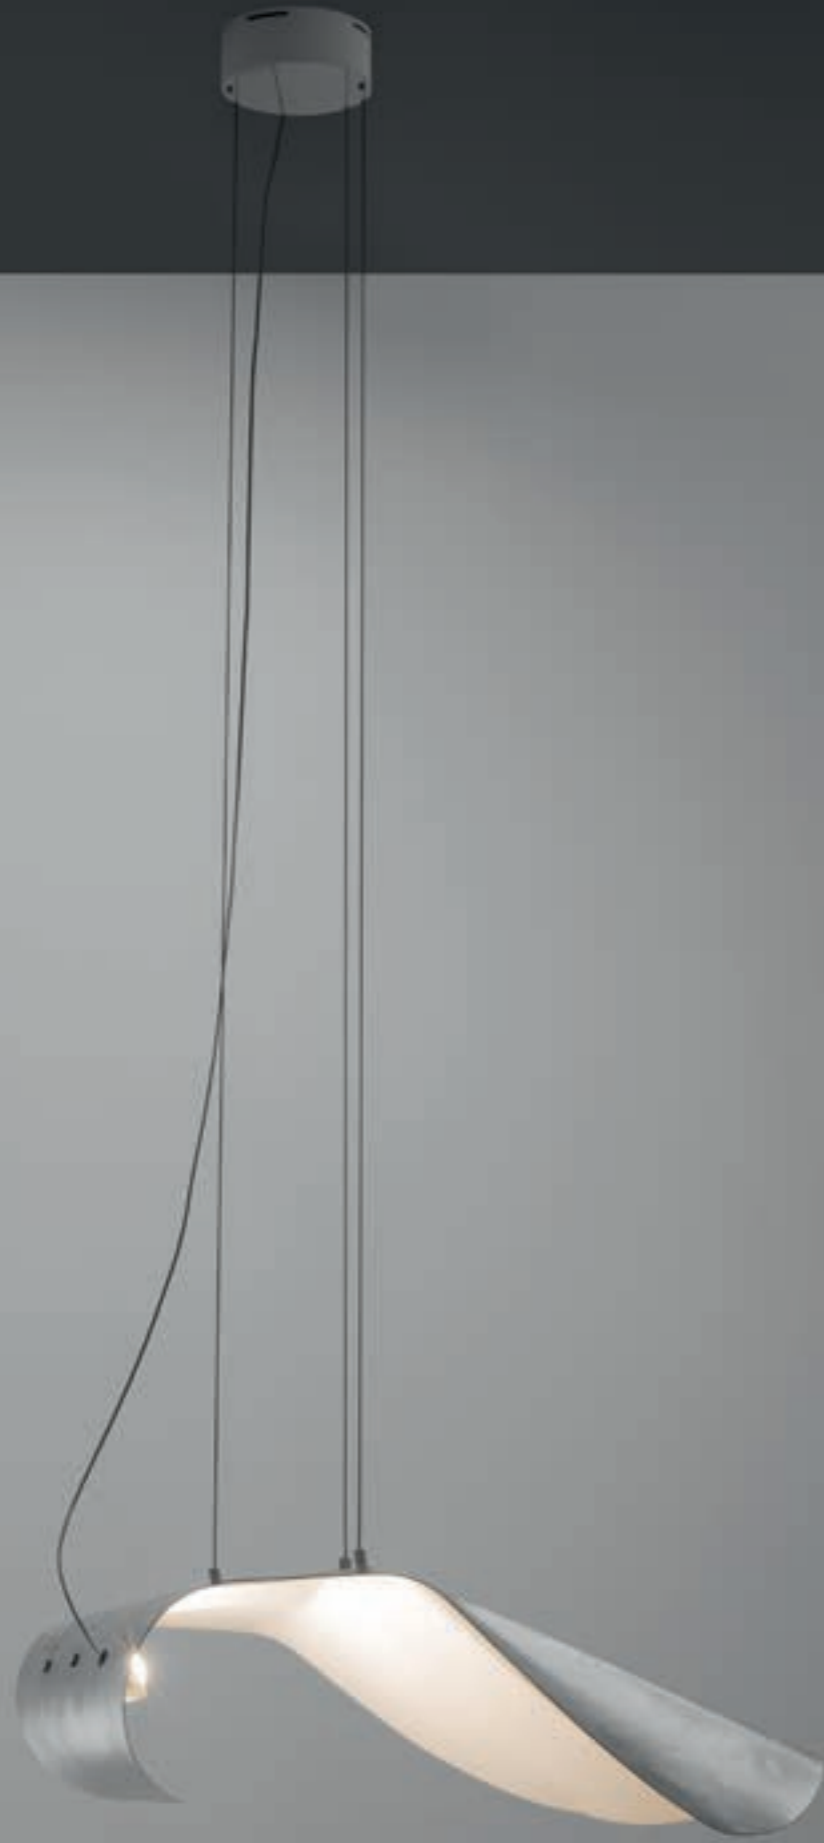

Essential... Indefinable... Sensation or impression that can't be clearly defined.  
Having a certain "Non So che", something charming but hardly definable

Undefinierbar... Unvorhersehbar... Ob es sich um ein Gefühl oder um einen Eindruck handelt,  
man kann es nicht erklären.  
Es hat ein gewisses Etwas "Non So che", etwas faszinierendes, aber kaum definierbar.

GI•GI

L'acciaio appare come un materiale statico e inutile finché viene plasmato e ripiegato su se stesso creando al suo interno, come uno scrigno che si schiude svelando il tesoro o un'ostrica con un luminoso segreto, una luce che irradia l'ambiente circostante.

Steel looks like an useless and static material until it is shaped and folded on itself creating inside, as a casket which burst revealing its treasure or an oyster with a lighting secret, a light which radiates the surroundings.

Der Stahl scheint wie ein starres und nutzloses Material bis er in sich zusammengelegt wird und Gestalt annimmt.  
In seinem Inneren entsteht daraufhin ein Schmuckkästchen, das sich öffnet um den Schatz zu zeigen oder eine Muschel mit einem leuchtenden Geheimnis, ein Licht, das auf die Umgebung strahlt.

BUCHI

Diverse forme, colori e dimensioni, spazio infinito e intrigante, di cui noi vediamo una piccola parte: il cielo che si illumina di stelle e scintille durante la notte e assume così diverse sfaccettature di colore.

Different shapes, colors and dimensions, endless and intriguing space, of which we see a small part: the sky that lights up with stars and sparks during the night and gathers different shades of color.

Verschiedene Formen, Farben und Dimensionen, endloses Weltall, von dem wir nur ein kleinen Teil sehen: den Himmel, der nachts von funkelnden Sternen erleuchtet wird und nimmt so unterschiedliche Facetten an Farben auf.

# A TEMPO PERSO

Con un'attenta lavorazione artigianale, solidi ma leggeri pezzi di alluminio, cambiano consistenza trasformandosi in morbide onde che, come quelle marine, sembrano muoversi delicatamente sulla riva al soffio del vento e si riempiono di luci e colori per poi ritirarsi su se stesse.

With a careful craftsmanship, solid but thin pieces of aluminium change consistency turning into smooth waves that, like the marine ones, seem to softly move on the shore to the wind blow and fill with lights and colors and then retreat on themselves.

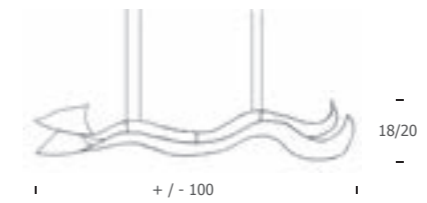

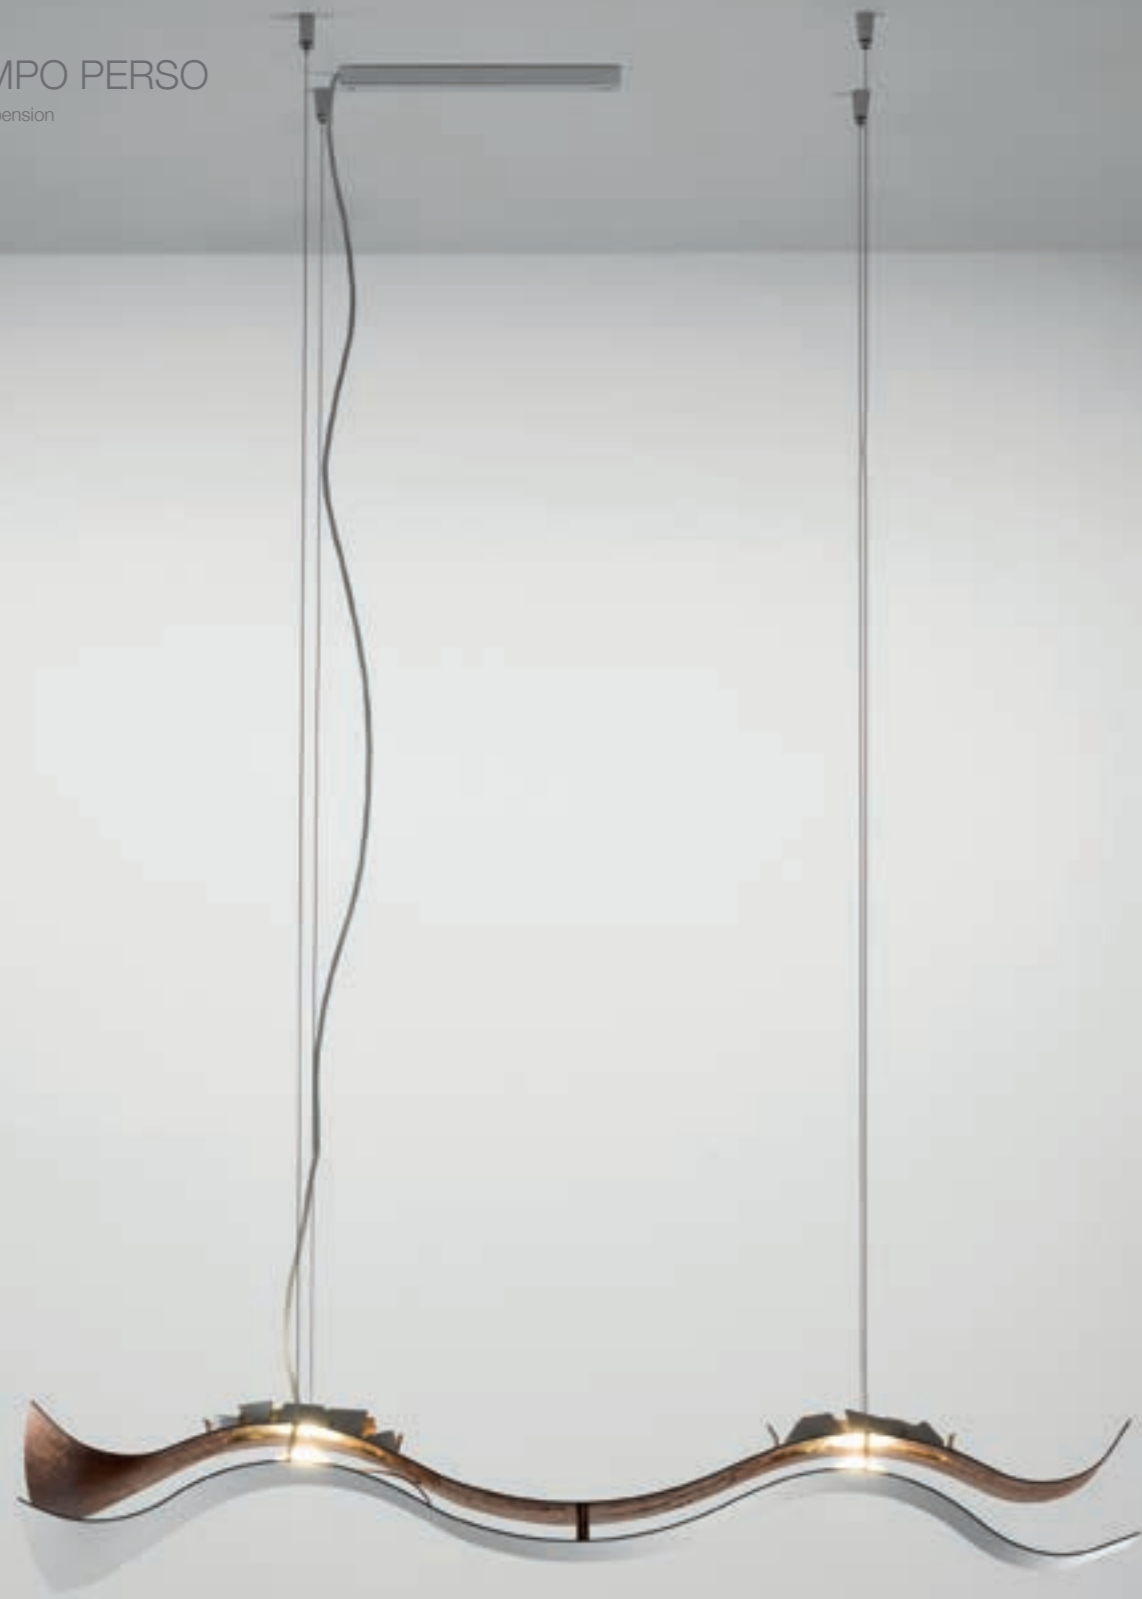

Durch die sorgfältige Handarbeit ändern die festen aber gleichzeitig leichten Aluminiumstücke ihre Festigkeit.  
Sie werden zu weichen Wellen, die wie die Meereswellen aussehen.  
Wenn der Wind über das Wasser weht, bewegen sie sich auf die Küste und fühlen sich mit Licht und Farbe, um dann sich wieder zurückzuziehen.

Sculture a forma di satelliti costituite da acciaio battuto a mano, color ghiaccio, l'aspetto totalmente monocromatico in foglia d'oro, argento e bianco brillano nella loro luce riflettente. Una luce monolith che raggiunge l'apice della sua forma grazie alla manipolazione esperta e insostituibile che firma e controfirma il marchio KNIKERBOKER.

Satellites-sculptures shaped malleable hand-wrought steel, color-icy, the total look monochromatic in gold leaf, silver and total white shine with its reflecting light. A monolith light that reaches the apex of its shape thanks to the skilful irreplaceable craft manipulation who sign and countersign the brand KNIKERBOKER.

Blattsilber oder Blattgold Satellitenskulpturen, die aus dem handgeklopften Blech entstehen, spiegeln das eigene Licht wieder. Ein leuchtender Monolith, der den Gipfel eigener Form erreicht, dank der geschickten und unersetzbaren Handfertigung, die signiert und mit dem KNIKERBOKER Label versehen ist.

HUE'

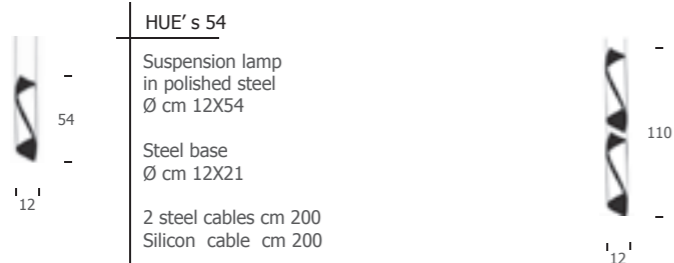

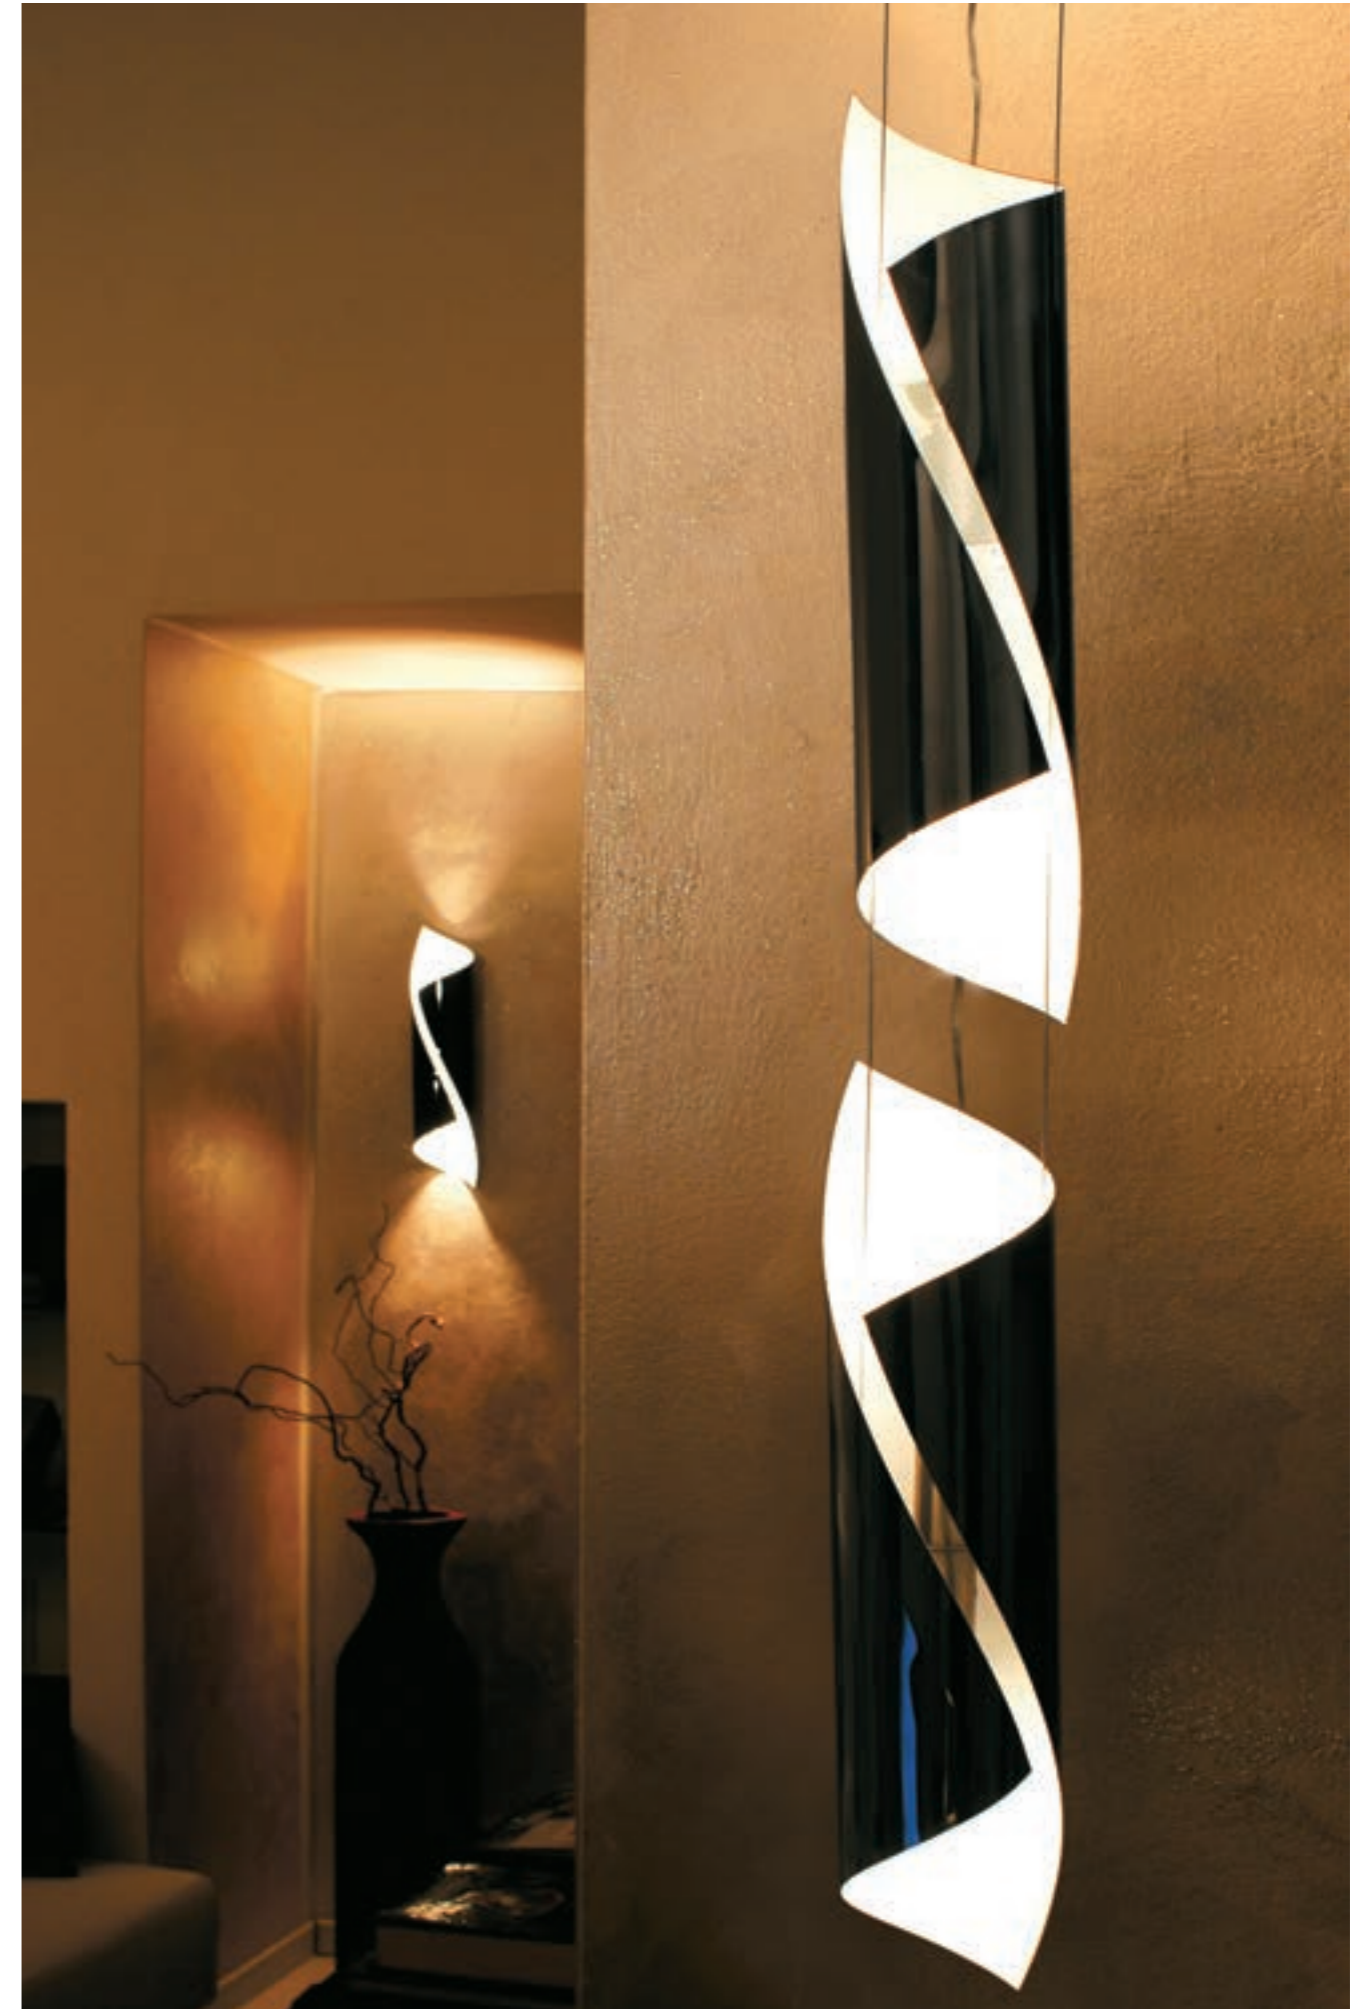

Ripiegata sinuosamente su se stessa quasi a formare un cilindro luminoso, con punte rivolte ai due poli. Gli abbinamenti cromatici, quasi serici, uniscono tipologie di cromature inusuali ed innovative, dal nikel nero al cromo, dall'oro all'argento, dal rame al bronzo, con l'aggiunta del "total white", cromia essenziale ed elegante.

Sinuously curved on its own figure as lightful cylindric shapes, with both tips turned towards to the two poles. Nearly silky chromatic couplings join together innovative and unusual chromazing, from black nikel to chrome, from gold to silver, from copper to bronze, with a dash of "total white", essential and smart color.

Leuchtender Zylinder mit den Spitzen zu den zwei Polen gerichtet, der zusammen geführt wurde. Die Farbzusammenstellungen, fast seidig, verbinden ungewöhnliche und innovative Verchromungstypologien, von Nickel - Schwarz bis Chrom, von Gold bis Silber, von Kupfer bis Bronze mit der Ergänzung von "Total - White", ein essentieller und eleganter Farbton.

# SPIRALI

→ PROJECT

Con una forma singolare la spirale avvolge la luce tra le volute della sua lamina, trattenendola quasi a renderla immortale.

A seconda di come la si osserva, nella sua imponente geometria, allontana e avvicina giochi di luce ed ombre fondendo materia al surreale.

A unique spiral form surrounds light with its luminous surface, retaining and rendering it almost immortal.

Depending on your point of observation, its commanding geometric shape blends rays of light and shadows into surreal material.

Mit ihrer außergewöhnlichen Form windet die Spirale das Licht zwischen den Blechvoluten und wirkt dadurch unvergänglich.

Durch die Geometrie entstehen je nach Entfernung der Betrachtung Lichtspiele und Schatten, die somit an surreale Materie erinnern.

# CURVE

PROJECT

Forme concave e convesse si alternano creando morbide curve. Una linea di luce ne illumina i lati dando vita all'acciaio e alle sue diverse finiture.

Concave and convex shapes alternate creating curves. A line of light illuminates their sides giving birth to aluminium and its different colors.

Konkave und konvexe Formen wechseln sich ab, um weiche Kurven zu erschaffen. Eine Lichtlinie beleuchtet die Seiten und erweckt dadurch das Metall und seine Ausführungen zum Leben.

# ECLIPTIKA

L'oro e l'argento, si accendono di luce per giocare con l'intreccio di lame d'alluminio.  
Nasce così la linea Ecliptika, giovane ed elegante, nelle sue diverse versioni, ben si adatta a diverse soluzioni d'interni.

Gold and silver are ignited by light reflected by aluminium blades.  
The new Ecliptika line comes to life, young and elegant in different version will adapted to different interiors styles.

Gold und Silber gehen an, um mit den Aluminiumblechen zu spielen.  
So entsteht die junge und elegante ECLIPTIKA- Linie. In den verschiedenen Ausführungen ist sie für unterschiedliche Inneneinrichtungsvarianten geeignet

# DES•AGN

The collection was born during Knikerboker's 10<sup>th</sup> anniversary  
 Its name is due to a pun with the look italian dialet  
 "DES•AGN" means "TEN YEARS"

"Dieci anni" di gioco fra passione e materia tagli di luce e ombre.  
 Knikerboker celebra così l'amore per il "des.agn" puro e essenziale,  
 "una lama che taglia una finestra verso il futuro"

"Ten years" of game between passion and material cuts of light and shadows.  
 Knikerboker thus celebrates love for "des.agn" pure and essential  
 "a blade which cuts a window towards the future"

"Zehn Jahre" leidenschaftliches Spiel mit Materialien, Lichtschnitten und Lichtschatten.  
 Knikerboker zelebriert auf diese Weise die Liebe zu "des.agn" rein und substanzuell.  
 "Eine Klinke, die das Fenster zur Zukunft öffnet"

# DO NOT DISTURB

## **Stiamo creando...**

Non poniamo mai limiti a nuove idee, dando libero sfogo alla nostra indole ispiratrice: creare nuovi concetti che diffondano il nostro lume artistico.

Nasce DO NOT DISTURB, un'emblematica visione di una lente d'ingrandimento con led a doppio spettro.

Niente ombre... "focus on light"!

## **We are creating...**

We never put limits to new ideas, since we give loose to our inspirational character: to create new concepts that spread our artistic light.

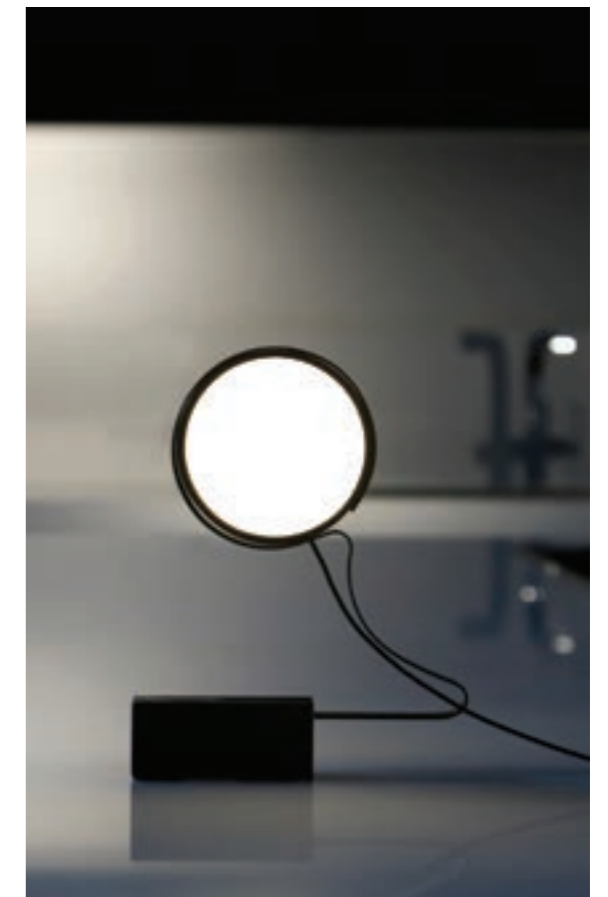

DO NOT DISTURB rises, an emblematic vision of a magnifying glass with double spectrum led. No shadows... "focus on light"!

## **Wir kreieren...**

Wir setzen neuen Ideen keine Grenzen, indem wir unserer Phantasie freien Lauf lassen mit dem Ziel neue Konzepte zu erschaffen, die unser künstlerisches "Lumen" verbreiten.

Dadurch entsteht DO NOT DISTURB, eine emblematische Vision einer Led-Lupe mit doppeltem Spektrum.

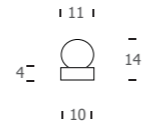

Keine Schatten... "focus on light"!

Questo progetto interpreta sinuosamente la filosofia dell'Hand-Made.  
Un filo d'alluminio plasmato a forma irregolare si stratifica "caoticamente", evitando schemi precisi ed enfatizzando il concetto innovativo di "LIGHTING ART MOOD".

# GRANCONFUSIONE

Knikerboker presenta creature che nascono da mondi e confini tra le diverse sfere della creatività: arte-moda-design si fondono per dare vita a sculture luminose dove gli angoli si smussano per creare enormi cerchi.

Knikerboker features of the creatures that come from different worlds and the boundaries between the spheres of creativity: art-fashion-design come together to create light sculptures where the corners are smoothed to create huge circles.

Knikerboker präsentiert Kreationen, deren Ursprung in unterschiedlichen Welten und Grenzen der Kreativität zu finden ist. Kunst- Mode- Design verschmelzen, um leuchtende Skulpturen entstehen zu lassen. Die Winkel runden sich ab, um riesige Kreise zu bilden.

# SENZAFINE

La Confusione viene reinventata in un vortice senza fine, dove la materia ha un inizio ma non si riesce a trovare il termine, "confondendosi" con l'ambiente in cui è inserita e adattandosi ad esso.

Confusione is reinvented in an endless vortex, where material has a beginning but an ending can't be found, "confusing" with the background where it's placed and adapting to it.

Die Confusione wurde in einem Wirbel "SENZAFINE" neu erfunden. Das Material hat einen Anfang, allerdings findet man das Ende nicht, denn die Leuchte verwischt sich in der Umgebung, in der sie positioniert wird und gleicht sie sich ihr an.

Passione, precisione e singolarità del "Hand Made" hanno reso possibile la realizzazione di vere e proprie opere d'arte. Imponenti "sculture luminose" prendono vita da un finissimo filo d'alluminio lavorato, avvolto e intrecciato, con infinita perizia, da mani abili ed esperte. Questi oggetti oversize suscitano stupore ed emozione, che diventano così componenti fondamentali del prodotto.

Passion, precision and "Hand Made" uniqueness had made possible the realization of true art works. Impressive "luminous sculptures" come to life from a fine wire of curved and braided aluminium, formed by expert hands. These oversize objects inspire amazement and emotions which become an intricate part of the product.

Die Leidenschaft, die Präzision und die Einzigartigkeit der "Handmade" Kollektion ermöglichen die Realisierung wahrer Kunstwerke. Beeindruckende "leuchtende Skulpturen" entstehen aus feinem Aluminiumdraht, der von geschickten und erfahrenen Händen verarbeitet, eingewickelt und geflochten wird. Diese Oversize - Objekte rufen Staunen und Begeisterung hervor.

La materia grezza dell'alluminio viene piegata, intrecciata e plasmata in forme cubiche che partono da dimensioni ridotte fino ad arrivare a sculture imponenti, creando con l'illuminazione ampi giochi di luci ed ombre.

The aluminium raw substance is bent, twisted and molded in cubic shapes which start from small sizes and reach massive sculptures, creating with light wide play of lights and shadows.

Das Aluminium- Rohmaterial wird gebogen, geflochten und in kubischen Formen modelliert, von kleinen Abmessungen bis zu imponierenden Skulpturen. In Verbindung mit dem Licht schaffen sie weite Lichtspiele und Schatten.

Una nuvola che danza all'aria aperta, materia eterea che assorbe, trasforma e riflette bagliori di luce grazie al filo di alluminio sapientemente intrecciato su se stesso.

A cloud dancing in the open breeze, ethereal substance which absorbs, transforms and reflects lighting glares thanks to the aluminium wire wisely braid on itself.

Eine Wolke, die in der Luft tanzt, ein ätherisches Material, das Licht- Schimmer absorbiert, verwandelt und reflektiert dank des Aluminiumdrahts, welches sorgfältig in sich geflochten wurde.

# Birth of a project

IDEA ─  
DRAWING ─  
FIRST SAMPLE REALIZATION ─  
ILLUMINATING THE SUBJECT ─

“Nei miei primi dieci anni ho imparato a trasformare l'alluminio plasmandone il filo per farne sculture luminose seguendo le forme più strane e complicate. Da qui sono nati oggetti fino a 25 metri di lunghezza ed i progetti più curiosi che si possano immaginare”.

“In the first ten years I learned how to transform aluminium molding the wire in order to make lighting sculptures following strange and difficult shapes. From here items up to 25 meters of length were born and the oddest projects that could be imagined”.

“In meinen ersten zehn Jahren habe ich gelernt, Aluminium in unverwechselbare und komplizierteste Lichtskulpturen zu verarbeiten. Von da an sind bis zu 25 Meter lange Lichtobjekte und die außergewöhnlichsten Projekte entstanden, die man sich vorstellen kann.”

# SOLARIA

Linea concepita per conservare e alimentare attraverso la luce al mercurio le piante durante tutto l'anno solare, grazie a lampade dai bassi consumi energetici e un'illuminazione in grado di stimolare il processo di fotosintesi.

Line conceived to preserve and feed through mercury light the plants during the whole calendar year thanks to lamps with low energy consumption and a lighting able to stimulate photosynthesis process.

Ausgedachte Linie, um die Erhaltung und Versorgung der Pflanzen während des ganzen Jahres durch das Quecksilber-Licht zu gewährleisten. Der niedrige Stromverbrauch und die entsprechende Beleuchtung sind in der Lage, den Fotosynthese-Prozess anzuregen.
