

Flamingo Mini

Design by Antoni Arola

VIBIA

Flamingo Mini

Flamingo Mini creates multi-layered silhouettes with an avant-garde, intriguing aesthetic.

This hanging lamp recalls a bird hovering overhead, bringing an intimate ambience as it casts diffuse gradations of soothing light through its translucent diffuser.

The Flamingo Mini collection pairs poetic beauty with high quality performance. Its deconstructed design separates an LED light source from layers of translucent diffusers, producing soft gradations of illumination. The diffusers are available in a range of different configurations, each LED performing like a spotlight, directed upwards or downwards to produce an ambient effect.
